**Implementation**
At St. Augustine’s, Creswick we are committed to providing homework for children in a way which maximises it’s educational benefits and enhances the connections between all in the homework process.
- That homework tasks are clear to students and parents
- Homework reinforces work already taught at school
- Homework is regular and that students regularly participate in homework: no more than 20 minutes for P-2 and 30 minutes for grades 3-6 each school night.
- That homework is relevant to the student’s needs and therefore may vary accordingly.
- In partnership with the parents/caregivers that it may be a form of written communication between school and home. Therefore the use of a diary or communication book is recommended.
- That homework is checked by the classroom teacher regularly and performance reported to students and parents.
- That the basics of Literacy and Numeracy would form an excellent basis for on-going homework.
- That consultation between the parents, teacher and students with any problems would be the norm.
